ROLANDO MONDILLA JR
MOBILE DEVELOPER

SUMMARY

As a seasoned full stack developer, I specialize in building high-performance, cross-platform applications for mobile (iOS/Android), desktop (Windows/macOS), and web. My expertise lies in architecting scalable and maintainable solutions using Clean Architecture, coupled with robust state management via Provider and BLoC. I have a strong background in integrating RESTful APIs to deliver seamless backend connectivity and ensure optimal app performance. Throughout my career, I've successfully developed and deployed multiple applications, prioritizing clean code, efficient workflows, and exceptional user experiences. I thrive on solving complex challenges and delivering solutions that not only meet but exceed expectations.

EDUCATION

UNIVERSITY OF MINDANAO
MAGNA CUM LAUDE

Bachelor of Science Information in Technology

SKILLS

- Dart
- JavaScript
- PHP
- CSS
- React
- Postman
- Firebase

FRAMEWORK

- Flutter
- Laravel
- Bubble

COLLABORATION TOOLS

- Github
- GitLab
- ClickUp
- Rocks

WORK EXPERIENCE

TECHNICAL SUPPORT | UNIVERSITY OF MINDANAO.

- Troubleshoot software, browser, or hardware issues (e.g., login errors, slow performance, system bugs.
- Perform routine system checks and updates as neededParticipated in sprint meetings and weekly code reviews to improve feature quality.
- Follow up with users to ensure issue resolution and satisfaction
- Monitor and respond to support tickets in a timely and professional manner.
- Provide step-by-step technical instructions to resolve user issues.

INTERN BUBBLE IO WEB DEV | JAIROSOFT INC.

- Tested and debugged features using Bubble's built-in debugger and manual testing
- Received mentorship and feedback to enhance no-code and general software development skills.
- Participated in sprint meetings and weekly code reviews to improve feature quality.
- Designed intuitive, user-friendly mobile interfaces with a focus on both aesthetics and functionality.
- Built no-code applications using Bubble.io, implementing workflows, databases, and responsive UIs.

MOBILE & WEB DEV | AETOS FINANCIAL

- Designing, implementing, and maintaining API integrations for seamless communication between systems and third-party services.
- Implemented state management solutions such as Provider and Bloc to ensure scalable and maintainable codebases.
- Successfully published apps on the Apple App Store, Google Play Store, and Huawei AppGallery.
- Designed intuitive, user-friendly mobile interfaces with a focus on both aesthetics and functionality.
- Developed comprehensive Entity-Relationship Diagrams (ERDs) to map out database structure, identify entities, relationships, and define data attributes.
